The big show this month is March 25, 2024, the Full Moon Lunar Eclipse at 5 degrees Libra, which is at 3:00 AM EST. This Libra Eclipse can be challenging with the transiting Venus, Jupiter and the North Node forming a Yod, a pattern aspect. Yods are called "Finger of God" which aspects and indicate that a certain amount of fate is present. You may feel you are being pushed forward into something new.

Mars Sextile North Node and Chiron at 17 Degrees Aquarius/Aries.** Mars sextile the North Node and Chiron, we need to act in our own best interests on important urgent matters even if it brings up painful memories (Chiron). There maybe a sense of urgency on those things that you know to be in your best interest, even if they bring up painful memories (Chiron). Confront your fears! Mars sextile Chiron acts as a cleansing of old hurts. Feel the anger, then let it go and imagine it sailing away into the atmosphere.

**March 9: Mars Square Uranus at 19 Degrees Aquarius/Taurus.** Mars square Uranus is the most unpredictable aspect this month. Everything and everyone are on edge (Uranus) and agitated (Mars), including you. Curb your the need to be impulsive and aggressive. Instead, use this innovative, active energy to breakthrough obstacles you are facing and experiencing in an inventive (Uranus) way. Use your imagination to what will work to your advantage rather than causing additional agitation. Use your genius (Uranus) we all have it! This difficult energy should pass by March 18.

**March 10: New Moon at 20 Degrees Pisces. New Moon Sextile Uranus at 20 Degrees Taurus.** It is a very unique New Moon! The Pisces New Moon is part of a Pisces Stellium that starts from 11 degrees Pisces to 27 degrees Pisces. In addition, all of the planets are within 90 degrees of each other. The focus is on:

- Personal freedom with Pluto, Mars and Venus in Aquarius.
- Spiritual new beginnings and honoring your intuitive, creative gifts (Moon, Sun and Neptune in Pisces).
- New ideas and new way of thinking, acting and looking at the world (Mercury, North Node and Chiron in Aries), and
- Abundance of innovative, yet grounded enthusiasm (Jupiter and Uranus).

**March 11: Venus Enters Pisces.** Venus in Pisces is one of my favorite transits combinations. Venus, the planet of love, brings a lovely veil to the already dreamy, spiritual and compassionate harmony of Pisces. Make sure that these new friend and lovers are who they say they are! They need to be worthy of your attention and care in your life. My only caution is to make sure that new friends and lovers are who they say they are and that they are worthy of your attention.

**March 17: (Happy St. Patrick's Day!) Sun Conjunct Neptune at 27 Degrees Pisces. Sun Square Moon in Gemini Early in the Day.** The Sun conjunct Neptune in Pisces is spiritually strong. It is a good time to let your compassionate juices flow. Ask yourself. "Where in my neighborhood can I spread a little bit of good cheer." It could be as simple as saying "Good morning" to a stranger or working at your favorite local charity. Awareness is important that you may be more sensitive now, shield yourself from negative energy whenever you can. Journal your thoughts during Sun conjunct Neptune square the Moon in Gemini would be helpful and good for your soul.
